**Vayu Aeterna**

“The Eternal Wind” (Sanskrit & Latin) is a self sufficient wind powered art installment featuring an Open Canvas “Gallery of Possibilities” with a Homeopathic Elixir Bar, embodying the majestic form of an Elephant.

**Highlights**

**Scale**
- ~25 Ft Apex
- 5600’ SqFt Lounge
- 5 Day Build with 6 crew
- 100% Wind Powered
- LED lighting and Video Mapping

**Destination Point**
A unique visual installation combining Creativity with Renewable Energy!

**Gallery of Possibilities**
The Vayu Aeterna Open Canvas Art Lounge will host giant Hexagon Canvases with paint supplies for any one to come create and host featured live painters from Nematona Sanctuary

**Workshops**
Hands on workshops will be held all week in the shade on the deep playa. These sessions will be hosted by leading speakers in that field.

**Community**
Vayu Aeterna will provide a shaded place for the Burning Man Community under the 5600 SqFt Nomad Tent to cover the “Gallery of Possibilities”, all patrons welcomed to collaborate and create!

**Zero Footprint**
This installation is 100% reusable, it was designed to be transportable, leave no trace!

---

**Vayu Aeterna at Burning Man 2017**

We are actively pursuing an invitation from the Burning Man Artery to attend the 2017 event.

We have the technical renderings and wind-energy generator fabrication quoted out and ready to build.

There will be a local carpenter on our crew building the Half Moon shaped Elixir Bar from up cycled materials.

The homeopathic apothecary menu has been developed by a local healer.

We also have our team of people for the logistics, build, operation, and load out of the installment.

Vayu Aeterna is unlike any other art installment; A synthesis of art and technology to provide an evolution of public expression thru wind energy & the “Gallery of Possibilities” open canvas concept.

We need to raise $50,000.00 USD to facilitate this installment.

**By January 1, 2017**
- Full funding $50,000.00 USD
- Order all materials by January 15
- Purchase a Burning Man Bus for the crew accommodations

How You Can Help

If you feel compelled to donate money or resources please email us at clvr.us.events@gmail.com.

This is a non-profit art installment showcasing sustainable creativity. We do not have any corporate sponsors, we are not charging patrons admittance, we stand to gain no profit but the beneficial education of the patrons and beautiful expressions of art are worth it to us.

We conceptualized this project to help educate the public on DIY renewable energy as well as diversify Burning Man in a ideally unique way.
This our technical rendering (as of July 25th) of the main elevation of Vayu Aeterna; Custom manufactured ground based wind turbine with a 5600 SqFt Nomad Tent covering the “Gallery of Possibilities” Open Canvas Art Lounge.

This is the front elevation rendering showing the Elephant motif, the Elephant face will be a video mapped image surface. All lighting used will be low powered LED; Exterior and Interior.

This is a sketch of the “Gallery of Possibilities” Open Canvas Art Lounge with the Homeopathic Elixir Half Moon Bar!

This is the Vayu Aeterna core team (L to R): Isla Moon- Visionary Art Director, Miles & Sylik - Owners CLVR US EVENTS LLC, and Adam-Technical Consultant/Lighting Designer.
